

STEINAR RAKNES

Never Let You Go

*If you got something on your mind
if you've got worries of any kind
If you're afraid or if you're in doubt
don't hold back, just let it all come out*

*I will listen, I'll be sworn
I'll give you shelter from the storm
Let it ride out in my arms
I will keep you out of harm's*

*Way...my baby
let me hold your hand
let us walk the distance
I want you to know
I'll never let you go*

*You give me joy, you give me mirth
you are the sweetest thing on earth
I don't need a needle in my vein
it's your love that keeps me unchained*

*So let's keep moving on this road
A pair of hearts will take the load off
Let us linger to this song
a hand like this is forever strong*

*Stay...my baby
let me hold your hand
let us walk the distance
I want you to know
I'll never let you go*
